DEAD SEA AND JORDAN.

HIS TOUR IN THE HOLY LAND. Lake in the World-Evidences of God's

Talfnage announced as his text, Ps

David the poet here pictures a volcano, and what Church's Cotopaxi does words. You see a hill, calm and still eth the hills and they smoke."

and beasts had been slain, and a super roses to the sea and the sea gave cry- in their debaucheries, four hells on tals to the shore; yea, all that beauty earth. and pomp and wealth could give was there to be seen or heard. But the bad morals of the city had shocked the world. In the year 79, on the 4th of August, a black column rose above the adjoining mountain and spread out, Pliny says; as he saw it; like a great pine tree, wider and wider, until it began to rain upon the city first thin ashes and then pumice stone, and sulphurous fumes scooped, and streams of mud poured through the streets till few people escaped, and the city was buried, and some of the inhabitants eighteen hundred years after were found embalmed in the scorie of that awful doom. The Lord called upon volcanic forces to obliterate that profiigate city. He touched the hills and

SCIENCE AND SCRIPTURE AGREE. Nothing but volcanic action can ex-Dead sea upon which I looked last bitter and stinging taste. Concerning hills and they smoke." all that region there has been controversy enough to fill libraries, science saying one thing, revelation saying an-other hing. But admit volcanic ac-tion divinely employed and both testimonies are one and the same. Geology, chemistry, geography, astronomy, ichthyology, ornithology and zoology are coming one by one to confirm the Scriptures. Two leaves of one book are Revelation and Creation, and the so steep to-day, and you can stay on without clinging to the pommel of the saddle, but the scenes amid which we ride shall, if possible, be more thrillthe sulphurous atmosphere of Lake Ashaltites, or the Dead Sea, we will be ready to dismount and read from our Ribles, about what was done that day

and they smoked. Take a detour and pass along by the rocky fortress of Masada, where occurred something more wonderful in the way of desperation than you have ever heard of, unless you have heard of that. Herod built a palace amid these heaps of black and awful rocks which look like a tumbled midnight. A great band of rotbers, about one thousand including their families afterward held the fortress. When the Roman army stormed that steep and the bandits could no longer hold the place, their chieftain, Eleazar, made a powerful speech which persuaded them to die before they were captured. First the men kissed their families a loving and tearful good-by and then put a dagger into their hearts, and the women and children were slain. Then ten men were chosen by Lot-to slay all the other men, and each man lay down by the dead wife and children and waited for these executioners to do their work. all was over came forth to tell of the Great and rugged natural scenery

PRICES GOING UP.

The trade journals, whose function it was a Cherokee Indian, six feet four and retail trade, are just now interest- last year. They attribute this largel The American Wool Reporter of the 16th instant makes this report of the present state of mind of woolen manufacturers: "Naturally all are looking forward to a readjustment of values. This is imperative, and, more than this, is the direct purpose of the new bill.' As to plain goods the Reporter says: "No one can tell where the market will go on these fabrics. At the present time fifty-inch goods that have been sold by jobbers this season as low as 50 cents, and in a few instances possibly against his Indian foe there were many down to 47% cents, are held strong at deeds of desperate daring placed to his agents' hands at 65 cents. A decided advance must be obtained on these fabrics, and it is held by some that

prices will touch 75 cents before the spring season is over" Satinets, says the same authority, are to command higher prices, "consequent upon the change in tariff laws. These must come; they are the inevitable result as well as advance over the auction prices of last spring." The Central Falls Mills, says the same journal, have announced that on and after the 18th the price of their "all wool Thibets will be \$1.871/4, an advance of 121/4 cents per yard, the goods having been sold this season at \$1.75." On the subject of carpets the Reporter had an interview with Mr. A. T. Lyman, of the Lowell Carpet Company, as to the effect of the new tariff on his business. "All classes of wools entering into the texture of carpets," says Mr. Lyman, "are subject to higher duties. A large amount of wool now coming to us will have to pay 40 per cent. more duty than it would have had to pay if it had come in last week. Right on the top of the passage of the McKinley bill, the Philadelphia carpet manufacturers invited

In many of the parishes farmers' organizations have been formed to fight the mills. The planters are pledging themselves to hold their cotton seed and use it as fertilizers rather than sell it at present prices. They also propose to Questious from visitors do not worry adopt the plan successfully pursued in South Carolina of putting up and working small co-operative oil mills of their own, and thus freezing out the big mills. They seem determined not to sacrifice their seed, and have already greatly reduced the supply for the New Orleans and other mills.

An "Allianceman," in the Southern Cultivator says "the character of the ourposes of the Alliance was fully emphasized in the fun lamental organism of the organization. The honor and integrity of the order was pledged to each member that there should be no conflict with their political or religious views. The base of the organization was to render the lives of farmers and laborers more attractive, country life less lonely and more social, and to better their financial condition.

There are two theories as to the cause of agricultural degression. One theory (held by politicians largely) is that the depression is due solely to legislation. sailed off on there bridal tour. She Ejects Cotton From Her Mouth and Eyes and Nobody Can Tell How it is DRESDEN, Tenn., Oct. 26 .- A most ex-

traordinary phenomenon is at present occupying the attention of the people in papers here have discovered the facts in the case as far as observation could go, and from what has been brought to light thus far there is now no doubt that the little village of Greenfield, about It is nothing less than a girl who at regular intervals ejects genuine cotton some sort of legerdemain, but now they have been repeatedly convinced of the

good-looking girl of twelve years, with fair skin, beautiful golden hair and light blue eyes—a perfect specimen of the blonde. She is stoutly built, though her family say she is gradually losing flesh. She has spent some time at school and is sharp and intelligent to a degree her in the least, and during the periods

when she is in possession of her health she is the soul of good nature. Early yesterday morning a party of women and two gentlemen visited the Hayes residence for the purpose of finding out for themselves if the story of the cotton was true or a myth of some enterprising romancists. On the way to their destination several persons whom the party encountered were asked to direct them on their way. In all such cases rather dubious answers were given, but there was an inclination displayed to avoid giving any details of the knowledge possessed on the subject. One man who had seen the cotton plainly ejected from the girl's eyes admitted the fact, but doubted that it was caused by any operation of nature.

The Hayes family live in a small wooden, box-like house, which contains but one room of any account. In this room the three sleep. There is a kitchen in the rear. Everything around the place was neat and clean. The girl was ying on an old-fashioned trundle bed Then a sad sight was revealed. Since the poor girl became afflicted, a few weeks ago, her toes have curved around gether in harmony and good will. Not towards the bottom of her feet, and all attempts to straighten them have proved futile and caused her terrible agony. They are cold as death, and so lifeless that physicians have pierced

them through and through with needles,

causing no pain. When an attempt is

made to bend them back to their natural
